

## **TAKING ATTENDANCE**

The concept of "Taking Attendance" was inspired by a video sent to me by a collector. This video was of his lab in its last months. There was a split second in that video that brought a flood of memories of my old friends, for me it was the true spirit of the lab

I have always encouraged my dog to walk in front of me unleashed. It fosters confidence in our relationship. In that video was a dog that walks in confidence although the walk showed signs of struggle, it never failed to stop or hesitate to turn to check on the welfare of their friend.
